

Train safely with the REDCAT:
Disengage the safety as you bring the rifle to bear on target. Engage the target(s). Re-engage the safety as you lower the rifle. No need to rack the bolt. Repeat as desired. Compatible with dummy rounds. Remove when training is complete.

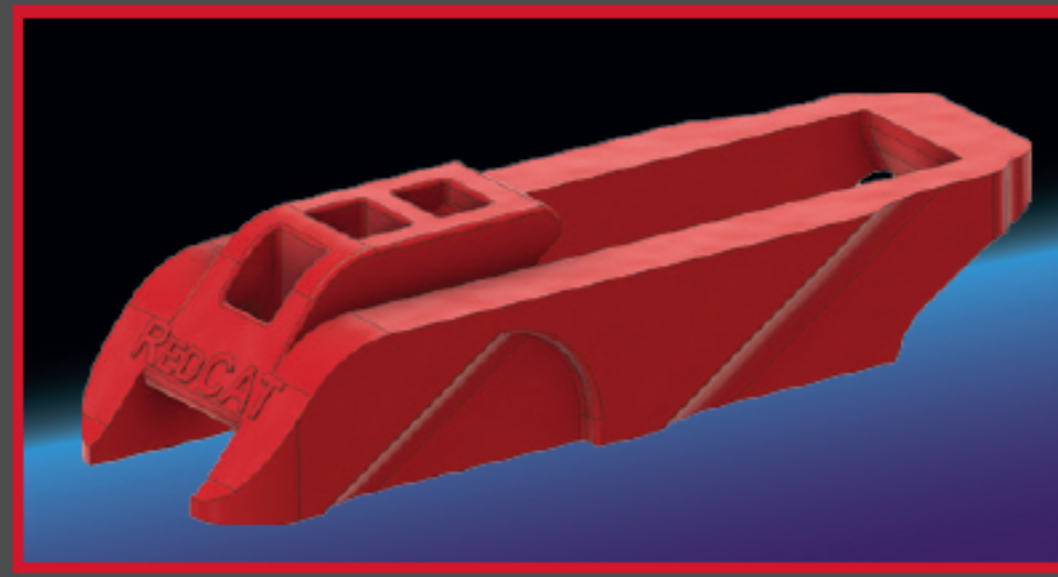

Check us out at redcat22.com for more information!

REDCAT is veteran owned and proudly made in the USA!

Install the REDCAT:
Unload/clear the rifle. Pull the takedown pin. Open as shown. Drop the REDCAT in the lower receiver. Reassemble. Function check. Train. No parts to remove. Rifle is safe and inert.
